## PROFILE

Second-year Computer Science student at IUT Annecy, seeking an internship to apply my knowledge in software development and gain professional experience. Motivated, organized, and eager to contribute to innovative projects while continuing to learn in a dynamic environment.

## WORK EXPERIENCES

**Team Project - Web Application** 2025 - 2026

University of Savoy / IUT Annecy - Annecy-le-Vieux, France

- Developed a Laravel web app in a 4-person team. Designed data models and BPMI flows, implemented cryptography and communication modules, and created Power BI dashboards using Scrum

**Multi-purpose Employee - Cashier** June - September 2025

Intersport - Annecy, France

- Managed cash register operations and payment processing
- Organized sales floor and provided customer advice
- Ensured customer satisfaction in a fast-paced retail environment

## EDUCATION

**BUT Informatique (Technical Bachelor's Degree in Computer Science)**

- Software development, database management, and network administration
- Academic projects involving full-stack web development with databases and user interfaces

**French Baccalaureate** 2024

Lycée Guillaume Fichet, Bonneville, France

- Specialized in Mathematics and Computer Science (NSI)
